SECURE ID

Full-Service Secure Credential Management

ACCESS SYSTEM ANALYSIS

The complexity of an enterprise-wide security upgrade can be daunting and expensive. Our expertise in identity management allows us to examine what technology you already use, **future-proof for any application**, and design the best approach to migrate to a secure solution. Need a cost-effective migration plan? Big or small, we help enterprises eliminate their access system vulnerabilities.

CUSTOM KEY ENCRYPTION

You wouldn't scatter copies of your house key around the neighborhood, so why would you risk duplicates in your access control system? We create custom AV1 and AV2 diversified encryption key sets that are 100% unique to your organization. Then, we hand complete ownership over to you, to boot! In today's security world, these are the ultimate deadbolt for enterprises – **credentials with zero risk of hacking or duplication**.

CUSTOM READER PROVISIONING

We can provide a plug-and-play card reader solution with custom PACS and RFID readers. Together, **we'll whiteboard the perfect design for your systems** with traditional access control, biometrics, and downstream applications for both physical and mobile payloads. When you're satisfied, we'll manage the installation, and you'll get the complete configuration guide and ongoing maintenance for firmware and updates throughout the lifecycle of the physical product.

FULL ACCESS TO YOUR CUSTODIAL GUIDE

Manufacturers and developers in the security world look to pigeonhole clients to their products by selling exclusive hardware or cloaked key sets. We believe businesses should own and have full access to their secure credential information. That's why, at the end of our service, we'll provide a fully documented custodial guide with detailed designs and configuration notes. **Everything is 100% transparent and owned by you.**

CREDENTIAL SYSTEM MANAGEMENT

Once you have a secure, open-architecture credential system with custom key sets, **we remain as custodian to your access control enterprise**. K&A manages custom keys for some of the biggest names across several industries, and we deliver consistent, secure credentials with no duplications – daily. With expert management and ongoing consultation, securing multiple locations with the same card programming is a cinch!

ID PRODUCTS

Personalized Service to Secure & Display Your Credentials

CUSTOM BADGE PRODUCTION

Maintaining ID card production in-house can cost businesses thousands of dollars in overhead expenses, so we offer printing and ID card production as part of our identity management services. Just provide us the data — personnel, photos, and branding — and *we'll deliver fully personalized ID badges ready to distribute* to any location. You'll receive packaged and collated ID cards and an electronic data file ready to upload into your access system.

BADGE DESIGN TEMPLATES

Have the data but not the design? We've been doing this for a long time and can *provide quick, easy-to-use design templates* using your corporate graphics. Just outline your requirements, and we'll deliver design proofs for committee review and approval.

PRINTER CONFIGURATION

Purchase your ID card printer from K&A, and we'll test and optimize the unit prior to shipment. Our expert technicians will *pre-install accessories* and *calibrate all settings* so your unit *arrives at your facility fully stocked* and ready to go!

ON-SITE PRINTER SERVICE

K&A doesn't sell a product; we offer a service — ID done right. That's why we provide optional *on-site installation, training, maintenance, and technical services* to make in-house hardware a breeze. We are invested in keeping your system up and running, so we offer preventative and remedial service for the life of the printer with on-site services, on-call technical support, and advanced loaner equipment options.

CUSTOM-BRANDED ACCESSORIES

We've been in the game since 1991, so odds are we've delivered custom accessories to your market. Ask to browse our extensive portfolio of custom-branded badge accessories to get ideas on how to showcase your graphics. Or just give us a call! We'll find *high-quality products to meet your needs and work within your branding requirements* so you can get professional designs delivered fast.

SOLUTIONS PROVIDER

We pride ourselves as the concierge of the identity management world, but we don't stop there. From access cards and readers, card printers and consumables, badging accessories, corporate event signage, promotional products, and more, *K&A is your one-stop trusted shop with unmatched customer service.*

EXPERT DISTRIBUTION

Our mass distribution capabilities are unparalleled in the credential services industry. Provide us with a list of addresses and product requirements, and *we will deliver across your enterprise* in record time — global or domestic. Get accurate shipment tracking, fast delivery times, and dedicated attention to your order from A to Z.

ECONOMIZED PRODUCTS

Since K&A purchases your goods in bulk, we can deliver the smaller quantities you need at *discounts usually reserved for larger quantity orders.* We take on the floor planning, and you receive products with better economic value.

ON-HAND INVENTORY

K&A will stock a "safety supply" of your custom products that traditionally require long manufacturing lead times. Get custom products fast without taking on the financial burdens or using valuable office space with on-site stock.
