SMART GUARD SHIELDED BADGE HOLDER

The ID Intelligence Smart Guard Shielded Badge Holder is made of durable rigid polycarbonate.

Available exclusively through K&A Industries, it can hold and shield two ID cards, effectively blocking RFID chips from being read without permission.

Its open face design allows for easy display and removal of cards (even one-handed!) yet is durable and secure, protecting cards from loss or damage.

Compatible, user-friendly, and economical, the ID Intelligence Smart Guard Secure Badge Holder is an excellent choice to protect your contactless smart cards.

Front - Top Load

Back - Side Load
